Art Unit: 1744

## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-17,52, are drawn to a device, classified in class 435, subclass 287.2.
  - II. Claims 18-37, are drawn to a sample vessel, classified in class 435, subclass 288.1.
  - III. Claims 38-51, are drawn to a method, classified in class 435, subclass 91.1.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions of group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of group II has separate utility such as in an assay not related to the processing of group I claims. See MPEP § 806.05(d).
- 3. Inventions of group III and I+II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process.

  (MPEP § 806.05(e)). In this case the apparatus can be used to practice another and materially different process not related to electrophoresis of a sample.

Application/Control Number: 09/782,732

Art Unit: 1744

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

- 5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 6. A telephone call was made to Mr. Lane on 6/25/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
